ASKED FOR BACKING

Kenneth S. Pickering, former accountant with the now defunct Onboard, approached Selectmen to ask their support in an application for a new federal and state funded program to be administered under a newly formed organization called METACOMET Consortium for Human Needs. Mr. Pickering said that his group wants to bring back to the New Bedford area a weatherization program. Selectmen asked if that were the program now administered by the Citizens for Citizens organization. Pickering said that it was but that Citizens for Citizens want to relinquish control of the program. He said that his group is not licensed as yet but are in the process of application. Selectmen requested a list of officers and Mr. Pickering said he would have to return with such a list but he stated that the METACOMET office is

that an analysis be conducted once again

"If a starving child were at our door in all its crying need, there would be no hesitation to help. That child is here in countless throngs, let not the distance come between. Let's lend a hand."

The Reverend Ernest W. Cockrell, St. Gabriel's Episcopal Church.

"With more than 400 million people in the world who are actually starving and at least 15 to 20 million who die from hunger and malnutrition each year, I can think of no better avenue of Christian help than OX-FAM, America. Along with CROP and efforts of the UN agencies, OX-FAM is considered one of the best non-profit, interdenominational organizations translating our dollars into food and self-assisting projects."

When you think of owning a new car is this the new car you think of owning?

A lot of people take one look at the rates for an auto loan and say, forget it. But here at Fairhaven Savings the rates are the lowest they've been in months, so maybe you can afford the car you really want.

Particularly since we ask for only 20% down. As opposed to 30% at many other places. And you have four years to pay. Not three. Once you have filled out the application, you can get the cash in 24 hours. We even have a telephone hotline to call to get the wheels turning. Call 999-7000.

Look at it this way. Now that Fairhaven has brought down the rates, all you have to do is come up with the car.

All three studied art in New York with prominent painters such as William Merritt Chase, and also studied abroad. Rosina and Lydia were asked to paint murals for the 1893 Chicago World's Fair.

Anyone interested in going to the Danforth Museum on Friday, December 3, please contact Susan Smith at 758-9314.

FRUIT SALE TO BENEFIT MUSIC PROGRAM

On Saturday, November 20, Mattapoissett, Marion and Rochester residents will be able to order Christmas gift boxes of fruit from ORR musicians.

Members of the Junior and Senior High School band and chorus will be taking orders door-to-door for fresh Florida oranges and grapefruit which will later be delivered by them in time for Christmas.

K.of C. Donates to Tobey

The Knights of Columbus BF Council 2911 recently donated \$1200 to the Rehabilitation Department of Tobey Hospital for the purchase of a Biofeedback Machine for their department. Biofeedback techniques are useful in assisting a patient in relearning an activity after prolonged immobilization such as a cast. It is also widely used to assist in relaxation training and retraining weakened muscles. Biofeedback is of great value in working with children. They respond to the lights and sounds and quickly learn what activity will produce the feedback. The check was presented by Neil McCallion, chair-

man of the Charity Fund, and Daniel Newberg, Grand Knight of the Council, to Mrs. Jo-Ann Finn, R.P.T. Supervisor of Tobey Rehabilitation Department who accepted it on behalf of the hospital.

Mattapoisett Girl Scout Activities

Girl Scouts are busy girls as is evident in the many activities they are involved in.

On Saturday, November 6th, the Scouts performed their first townwide service project. Girls from all levels of scouting raked leaves for the Senior Citizens in town from 9:30 a.m. to 5:00 p.m. Because of the number of requests by the Seniors, the girls were not able to finish all the yards, but arrangements are being made to complete

Brownie Troop 75 planned an afternoon of horseback riding last week at Branch Brook Acres in Rochester. The girls learned proper riding skills as well as how to care for the animals, stables and tack.

Brownie Troop 158 had Mr. Daniel Ostrye from GHR Analytical of Lakeville come to a troop meeting recently. Mr. Ostrye explained the testing he does for the town and told the girls how important it is for them to protect the environment. The girls were very impressed with his chemical "magic".

Early arrivals at the Fair can expect to find a wide selection of home-baked foods, as well as a country store featuring Autumn fruits and vegetables. Bargains in nearly-new jewelry and recycled linens, as well as good used books and white elephants, will surround the Crafts Boutique at the center of the Fair. Many skilled and willing hands have contributed a rich sampling of the traditional needle arts, from knitting and crochet to needlepoint, embroidery and theorem painting. This year, a patchwork quilt, made by the church school mothers, and a beautiful Aran-knit sweater, made by Mrs. Margaret Huckins, will be offered at a silent auction.

Coffee, tea and desserts will be available at the Coffee Shoppe all day. Located on the stage of the Parish House auditorium, the Coffee Shoppe offers an excellent vantage point from which Fairgoers can watch the swirling activity below. Plan to spend the day with us at Poinsettia Fair!

Holiday Flower Arranging

"Holiday Flower Arrangements with a Flair" will be the subject of a lecture and demonstration by Kenn Stephens on November 21 at 2:30 p.m. in the Southeastern Massachusetts University Auditorium. Sponsorship is by the SMU Library Associates.

The executive director of the Worcester County Horticultural Society -- one of the oldest societies in the United States -- and a member of the executive board of the National Council of State Garden Clubs, Stephens has received acclaim for his designs of all stylistic forms of flower arrangements. He is known as an artistic director for flower shows in historical set-

tings. Through his extensive travels he has created new flower designs drawn from classical concepts in Italy, Spain, Portugal, Bermuda, Madeira, and Nantucket.

For tickets call 999-8009, 996-4120, or 678-7824 during the day, and 995-3528 or 992-5554 evenings. There will be door prizes.

TINY TOT CLASSES

The New Bedford YMCA Aquatic Department has set November 22-27 as registration for the next session of Tiny Tot swim lessons. Classes will start November 30th and meet twice a week for 5 weeks. Both morning and early evening class times are offered.

Parent and Tot sessions are for children between the ages of one month to 3 years. The class will help the child become accustomed to the water and its buoyancy, and learn basic water skills.

Children between the ages of 1 and 5 years participate in instruction and tot sessions. These classes teach the child how to breathe, a modified crawl stroke, jumping, diving, and floating.

At the final class, the parents will be offered basic non-swimmer pool safety skills. Early registration is advised since there is a limit of 12 students per class.

For more information on this and other aquatic programs, call the New Bedford YMCA at 997-0734.

MATTAPOISETT HISTORICAL SOCIETY NOTES

Today when one walks through Shipyard Park and reads the inscription on the monument it brings to mind a picture of a very busy waterfront.

Sloops and small schooners were built in Mattapoisett as early as 1740. From Cannon's yard at Ship Street to the Meiggs' yard at Stackpole's (The Sands) the shore line was practically one continuous shipyard.

In the busiest period seven ships were going up at one time. 275 workmen came up from the yards and workshops when the six o'clock bell rang at the foot of Mechanic Street. Every man was entitled to the chips which he hewed from the timber and many a workman on his way home trundled before him a well filled wheelbarrow.

Judge Holmes estimated that in the century and a half of shipbuilding nearly 500 vessels were built at Mattapoisett, amounting to more than 100,000 tons and at the quite regular rate of \$40. per ton, worth at least \$4,000,000!

Paint shops, bake shops and chandlers lined the lower streets and oil covered the long stone wharves. Riggers were busy in the sail lofts and draftsmen were laying out

Gideon Barstow came from Scituate in 1765 and was a famous builder. Abner Pease had his yard at Pease's Point on the Aucoot Cove side. Washington Gifford built on Mattapoisett River.

Mattapoisett translated from the Indian means "Place of Rest", but it was certainly a busy "Place of Rest" in those early days. The workmen were skilled and intelligent master mechanics and not obliged to seek employment elsewhere, home offered better than most localities. Those who were not skilled handworkers had often been all over the globe and obtained the education and balance that wide wandering gives.

However, they had their recession times and one year when the oil prices were down and business dull and no prospect of any ships being built, Josiah Holmes (great-grandfather of Lemuel LeBaron Dexter)* went over to talk with men in New Bedford and found what they said they could afford to pay for a ship. He got his workmen together, stated what he could fix to do, and the men instead of loafing had steady

Around 1795, Aaron Willard made the original of this clock in his shop on Boston Harbor.

Inspired by the sight of schooners and windjammers he produced the unusual dial featuring a ship that rocks with every stroke of the pendulum.

This authentic reproduction is part of an exclusive collection produced by special arrangement with the Henry Ford Museum.

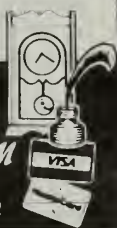

This clock by Colonial features a striped mahogany cabinet with inlay lines and Westminster Chimes.

LLOYD CENTER SPONSORS FIREWOOD RAFFLE

Those interested in buying raffle tickets or purchasing firewood are encouraged to call the Center at 990-0505 or stop by at the Potomska Road administrative building. The building is open to the public from 9:00 a.m. until 5:00 p.m. Tuesday through Sunday. The Lloyd Center grounds and trails are open 365 days a year.

winter are more easily visible. The group will spend some time walking the trails to find these nests. We will discuss the builder's choice of location and building materials. Because most nest-builders and users are no longer present, we will also learn how to begin identifying nests using a key.

The results of our searching for and identifying nests will be added to the Lloyd Center's inventory records. These records include regular censusing of the animal and plant life on the property. The Center welcomes volunteers interested in taking part in these efforts on a regular basis.
